To The Members of the Board of Selectmen  
Town of Stratford  
Stratford, N.H. 03590

We have audited the accompanying general purpose financial statements and the combining and individual fund financial statements of the Town of Stratford as of and for the year ended December 31, 1990, as listed in the table of contents. These financial statements are the responsibility of the Town's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As described in Note 1B, the general purpose financial statements referred to above do not include the General Fixed Asset Account Group, which should be included to conform with generally accepted accounting principles. The amount that should be recorded in the General Fixed Asset Account Group is not known.

In our opinion, except that omission of the General Fixed Asset Account Group results in an incomplete presentation, as explained the the above paragraph. The general purpose financial statements referred to above present fairly, in all material aspects, the financial position of the Town of Stratford as of December 31, 1990 and the results of its operations (and cash flows of nonexpendable trust funds) for the year then ended in conformity with generally accepted accounting principles. Also, in our opinion, the combining and individual fund financial statements referred to above present fairly, in all material respects, the financial position of each of the individual funds of the Town as of December 31, 1990, and the results of operations of such funds for the year then ended in conformity with generally accepted accounting principles.

Our audit was made for the purpose of forming an opinion on the general purpose financial statements

taken as a whole and on the combining and individual fund financial statements. The accompanying financial information listed as schedules in the table of contents of our report is presented for purposes of additional analysis and is not a required part of the financial statements of the Town. Such information has been subjected to the auditing procedures applied in the audit of the general purpose, combining and individual fund financial statements and, in our opinion, is fairly stated in all material respects in relation to the financial statements of each of the respective individual funds and account groups taken as a whole.

## STRATFORD AMBULANCE CORPS REPORT

To the Town of Stratford:

I personally would like to thank the towns-people of Stratford for the backing you have showed us this past year.

For the year 1990 our Corp responded to 39 calls with our ambulance and crew; 3 calls we were unable to roll but had a person at the scene when an ambulance did arrive; and had one emergency which we were never called to respond to.

In the past year we lost one crew member but through hospital sponsored training classes gained 3 members-Gail Landry, David Fuller and Steven Bissonnette. Stratford Ambulance Corp now has a total of 10 licensed EMS personal and should have one more in a few months.

I'm extremely grateful for the 50 thousand that was appropriated for the replacement vehicle and equipment. Of the 50 thousand we were able to purchase a 1990 fully equipped Ford Type II van with portable suction and tri-level stretcher for the price tag of 40,249. This vehicle was a demo with approximately 6000 miles; which bought new would have cost between \$46 to \$48 thousand. Also, we were able to upgrade our blood pressure unit to a digital fully automatic model which also gives us ones pulse rate for \$2328.65

Lastly, the radio system was upgraded with a receiver in the patient area---installed for \$1913.00. Much appreciation to Chief White in his assistance which is the same model he has in the cruiser.

Though unable to purchase an automatic defibrillation unit because of wording; the cost of the ambulance, radio, equipment and lettering still only came to \$44,515.65.

If an emergency arises you can call any of the below phone numbers to call for the ambulance, or go through Colebrook Hospital.

Harlan & Patty Connary	636-2930
Ken & Lori Hastings	922-3800
Ron & Lynda Paquette	962-5178
Gail Landry	962-5076
Dave Fuller	962-3846
Steve Bissonnette	922-3478
June Hook	962-5559

Respectfully,

Ronald Paquette/Pres. Stratford Ambulance

Dear Selectmen:

The Upper Connecticut Valley Hospital Board of Directors would like to convey our thanks to you and your townsmen at the 1990 town meeting for assisting our Emergency Services.

Your support is extremely important to us in our unceasing endeavors to provide the North Country with quality health care services.

Thank you again for your assistance and your support.

Sincerely,

Deanna S. Howard

## NORTH COUNTRY COUNCIL, INC.

North Country Council, Inc. is the non-profit regional planning commission serving 51 towns in Northern New Hampshire. The Council's primary mission is to meet the planning and development needs of its member towns. Specific assistance presently available from the North Country Council includes municipal planning, economic development, GIS mapping and resource management. When requested, the Council provides professional guidance and assistance to Boards of Selectmen, Planning Boards, Zoning Boards of Adjustment, Conservation Commissions and Solid Waste Districts in member communities.

Assistance provided to the Town of Stratford in 1990 included:

- \* Providing a \$1,000. grant to assist with the costs of North Country Council preparing the Master Plan;
- \* Preparing a successfully funded Community Development Block Grant (CDBG) for a feasibility study on a new water system. North Country Council is presently administering the study;
- \* Preparing a successfully funded CDBG for a housing feasibility study and conducting the housing study;
- \* Working with the County Officials in Stewartstown to plan a regional recycling program;
- \* Working with the Upper Connecticut Valley Solid Waste District to update the twenty-year solid waste management plan.

In 1990 the Council also provided a variety of services on a regional level. For example, workshops were held informing local officials of excavation site requirements, innovative zoning, shoreline protection, rivers management and cultural resources.

The Council worked closely with economic development committees throughout the region. The Council's very active Transportation Committee focused on local and regional highway, air, and rail issues. NCC'S Solid Waste Coordinator continued to advocate regional solid waste management while working with five area solid waste districts.

In the ensuing year NCC's work program emphasizes community and economic development at the sub-regional and local level, while continuing the existing focus in solid waste and transportation. Under the leadership of our newly hired Executive Director, Preston S. Gilbert, NCC is fully committed to provide timely service to it's member towns.

To the School Board  
Stratford School District  
North Stratford, New Hampshire

We have audited the general purpose financial statements of the Stratford School District, North Stratford, New Hampshire, for the year ended June 30, 1990, and have issued our report thereon dated November 27, 1990. As part of our audit, we made a study and evaluation of the internal control system, including applicable internal administrative controls, used in administering federal financial assistance programs to the extent we considered necessary to evaluate the systems as required by generally accepted auditing standards, Government Auditing Standards, issued by the Comptroller General of the United States, the Single Audit Act of 1984, and the provisions of the Office of Management and Budget Circular A-128, "Audits of State and Local Government." For the purpose of this report, we have classified the significant internal accounting and administrative controls used in administering federal financial assistance programs in the following categories:

Accounting Applications

- Cash and investments
- Revenue, receivables and receipts
- Expenditures for goods and services and accounts payable
- Payroll and related liabilities
- Inventories
- Capital expenditure
- Debt and debt service expenditures
- Grant and similar programs

Controls Used in Administering Federal Programs (as applicable)

General Requirements

- Political Activity; Davis-Bacon Act; Civil Rights;
- Cash Management; Relocation Assistance and Real
- Property Acquisition and Federal Financial Reports.

Specific Requirements

- Types of services allowed or unallowed; Eligibility;
- Matching, Level of Effort, or Earmarking; Reporting
- and Cost Allocation.

The management of the Stratford School District, North Stratford, New Hampshire, is responsible for establishing and maintaining internal control systems used in administering federal

financial assistance programs. In fulfilling that responsibility, estimates and judgements by management are required to assess the expected benefits and related costs of control procedures. The objectives of internal control systems used in administering federal financial assistance programs are to provide management with reasonable, but not absolute, assurance that, with respect to federal financial assistance programs, resource use is safeguarded against waste, loss and misuse; and reliable data are obtained, maintained, and fairly disclosed in reports.

Because of inherent limitations in any system of internal accounting and administrative controls used in administering federal financial assistance programs, errors or irregularities may nevertheless occur and not be detected. Also, projection of any evaluation of the systems to futures periods is subject to the risk that procedures may be inadequate because of changes in conditions or that the degree of compliance with the procedures may deteriorate.

Our study included all of the applicable control categories listed above. During the year ended June 30, 1990, the Stratford School District, North Stratford, New Hampshire, had no major federal financial assistance programs and expended 88% of its total federal financial assistance under the following nonmajor federal financial assistance programs:

U.S. Department of Agriculture  
National School Lunch Program

With respect to internal control systems used in administering these nonmajor federal financial assistance programs, our study and evaluation included considering the types of errors and irregularities that could occur, determining the internal control procedures that should prevent or detect such errors and irregularities, determining whether the necessary procedures are prescribed and are being followed satisfactorily and evaluating any weaknesses.

With respect to the internal control systems used solely in administering the other nonmajor federal financial assistance programs of the Stratford School District, North Stratford, New Hampshire, our study and evaluation was limited to a preliminary review of the systems to obtain an understanding of the control environment and the flow of transactions through the accounting system. Our study and evaluation of the internal control systems used solely in administering these nonmajor federal financial assistance programs of the Stratford School District, North Stratford, New Hampshire, did not extend beyond this preliminary review phase.

Our study and evaluation was more limited than would be necessary to express an opinion on the internal control systems

used in administering the federal financial assistance programs of the Stratford School District, North Stratford, New Hampshire. Accordingly, we do not express an opinion on the internal control systems used in administering the federal financial assistance programs of the Stratford School District, North Stratford, New Hampshire.

Also, our audit, made in accordance with the standards mentioned above, would not necessarily disclose material weaknesses in the internal control systems, for which our study and evaluation was limited to a preliminary review of the systems as discussed in the fifth paragraph of this report.

This report is intended solely for the use of the School Board and applicable federal and state cognizant or grantor agencies. This restriction is not intended to limit the distribution of this report, which upon acceptance by the Stratford School Board, is a matter of public record.

## MESSAGE FROM THE SUPERINTENDENT OF SCHOOLS

So many good things have been happening at the Stratford School this year, it is difficult to highlight just a few. Nevertheless, here are a few events that mark the year. Stratford School was selected last spring as one of thirty-one participants in the School Improvement Program (SIP) sponsored by the New Hampshire Alliance for Effective Schools. "Making our good schools work better" is the motto of SIP, a state program committed to working with the local community to make the educational program more effective through a sequential, carefully crafted process which results in articulation of school goals and a plan of action to meet them. Support for the process is provided by the New Hampshire Alliance and the entire procedure is guided and monitored by its experienced staff. Also, through its participation in this program, Stratford can draw on resources to provide training and information about instructional practices for faculty and staff.

Complimenting SIP have been the many community activities--dinners, tributes to athletes, past and present, fundraisers, etc.--which have brought so many people to the school and celebrated the wonderful spirit that makes Stratford special.

At this time of year, attention is most often directed to school finance. New Hampshire continues to neglect its responsibilities in this area. The seventh wealthiest state in the United States in terms of per capita income, New Hampshire is, appallingly, last in the nation in terms of aid to education. Local property taxes, the second highest in the country, can be stretched no more to pay for the rising costs involved in merely maintaining school programs, to say nothing of improving them.

Stratford is fortunate in receiving enough state funding this year to allow the current program to continue without requiring a raise in taxes. However, the vagaries of our current foundation aid process are such that one cannot count on this support over time. Indeed, already there is talk of changing the Augenblick formula to limit the impact of land in current use. (Augenblick is the name of the formula which determines what each district's slice of the Foundation Aid "pie" will be, the pie itself is now only the sweepstakes revenue.) Nothing will be more essential to Stratford's ability to continue its fine K-12 school than appropriate changes in state funding practices.

An important activity this year has been a look at the curriculum of the schools of SAU #58. The School Board has adopted a five-year plan for assessing and revising what we teach and when, focusing each year on different subjects. Faculty and

administrators have been attending workshops and courses, as well as visiting other schools, to learn what is needed to improve our program. Federal monies help support these staff development opportunities. If we are to make best use of our limited educational resources, it is imperative that we insure that our curriculum is as effective as it can be.

This year mathematics has been the major curriculum priority. A recent publication by the National Council of Teachers of Mathematics, CURRICULUM and EVALUATION STANDARDS for SCHOOL MATHEMATICS, has provided impetus for many school districts in the United States to take a hard look at what we are teaching in math, in part, because of concern that so few children complete math through twelfth grade. A small group of teachers and administrators, after studying the excellent research material now available in this area, is preparing a new K-12 math curriculum manual for use next year.

Another area which we are examining is that of children's expository and creative writing. The ability to write well is a critical skill and one that needs more attention. To be able to express one's thoughts clearly and succinctly is the essential ingredient in being a good student at any age. Schools, everywhere, are stressing this important outcome, not just in language arts but in all subjects. So, too, Stratford teachers and administrators have been studying, in workshops and courses, how to improve students' writing ability. A first step, this year, has been to allocate more time in the elementary school day for writing.

I have appreciated especially the warm welcome given to me by so many Stratford folks in and out of schools. It's a delightful challenge to take on the role of Superintendent of Schools here in this beautiful country and I thank you for the opportunity to work with the wonderful staff, school board members, parents and children that make up the Stratford School community.

RESPECTFULLY SUBMITTED,  
JACQUELINE P. CLEMENT,  
SUPERINTENDENT OF SCHOOLS

## PRINCIPAL'S REPORT

The 1990-91 school year has been very busy and exciting. We started the school year by re-introducing the school song and developing a calendar of events which outlined the activities for the entire school year.

Several faculty committees were organized in order to improve the educational progress:

- Curriculum
- Drug/Alcohol/Sex Education
- Crisis Intervention

The curriculum committee was responsible for organizing existing curriculum and developing a K-12 Math curriculum. The Drug/Alcohol/Sex Education committee was also responsible for developing a K-12 curriculum. The Crisis Intervention committee organized a set of procedures to follow in various emergency situations, as well as a team to carry out the procedures.

Several physical improvements have been made to enhance the school facility.

- New stage curtains
- New vinyl siding to eaves and front entrances
- Renovation of locker rooms
- New playground (Thank you PTA)

Perhaps the most significant development in the 1990-91 school year was the acceptance by the NH Alliance for Effective Schools of Stratford School as a member of the School Improvement Program (SIP). This has required the organization of the school improvement team. SIP is a group of teachers, parents, students, administrators, and a school board member who have been trained to work collaboratively towards school improvement. The purpose is for the team to use the latest educational research in developing long-range plans to improve students learning, behavior, attitudes and success in general. Stratford School received a grant to fund this project and it is estimated that we received \$35,000 in services at no local cost to the school district. The real power behind SIP is the involvement of many different constituent groups, ie. school board, teachers, administrators, and students, who have developed a process by which they work together towards a common goal. The shared leadership, resulting from this process, and the potential for positive growth is tremendous.

I would like to conclude this year's report by highlighting the mission statement for Stratford School. The mission statement was written by students, teachers, parents and administrators. The mission statement outlines the philo-

sophical direction we plan to take to improve our school. By working together, we can achieve almost any goal.

MISSION STATEMENT

"Stratford School strives to develop the intellectual, social, and emotional well-being of every student and prepare them to meet the many challenges of life and the future. We reach out to all members of this small, caring community to encourage enthusiasm and dedication for lifelong learning. Through cooperation, mutual respect, self-confidence and school pride we seek to nourish a sense of teamwork. Together our determination will carry us to new heights."

Once again, thank you for giving me the opportunity to serve as your Principal.

Respectfully submitted,

John Graziano  
Principal

## RIGHTS OF PARENTS OR GUARDIANS

As the parent or guardian of a child who may require or who is receiving special education and/or related services, you have the following rights:

\*You have the right to have access to and examine all records relating to your child's education.

\*You have a right to receive prior written notice whenever the local educational agency proposes to begin or change the special educational referral, evaluation and/or educational placement of your child. You also have a right to give your written consent before initial special education placement and before any individual evaluation of your child.

\*You have a right to question any matter, decision or recommendation relating to your child's referral, evaluation or educational placement.

\*You have a right to request an independent educational evaluation obtained by the local educational agency. If your request is accepted, the evaluation will be conducted by a certified or licensed professional examiner who is independent of the local educational agency and will be performed at no cost to you. Should your request be denied, you have a right to appeal this decision as described below.

\*If you have any complaints regarding the referral, evaluation or educational placement of your child, you have a right to meet with the school board. If any agreement is unable to be reached, you have the right to an impartial hearing conducted by a state appointed due process hearing officer.

\*At this hearing, you have the right to be assisted by person-(persons) with special knowledge or training, or by an attorney, and the right to present evidence and confront, cross-examine and compel the attendance of witnesses.

\*After this hearing, you have the right to a written or electronic verbatim recording of such hearing. You have the right to obtain written findings of fact and decisions of the hearing at no cost.

\*If the decision of the impartial hearing at the local level is not acceptable to you, you have the right to appeal this decision to the State Board of Education or Civil Court.

\*During any of the hearings or appeal procedures your child shall remain in the current education program or, if applying for initial admission to the public school, shall be placed in a regular program until all proceedings have been completed, unless you and the school officials agree otherwise.
